

# Datenschutzjurist / GDPR Lawyer

On 25 May 2018, a new chapter in EU data protection law came into effect. As foreseen by Article 80 GDPR, *noyb* is a European NGO focused on strategic, innovative, and effective enforcement of wilful privacy violations by private actors across the European common market. We work together with national institutions in the consumer, privacy, and tech sectors. We are always looking to add talent to our pan-European team to work on strategic litigation. This includes issuing informal warnings, lodging complaints with DPAs, and initiating civil law suits and collective actions. We offer a unique opportunity to shape the future of privacy - hopefully together with you!
